

Quiz # 02 (A)

Course Title: Peripherals & Interfacing
Course ID: CSE - 4619

Total Marks: 15

Time: 30 Mins.

Student Id:

Obtained Marks:

-
- Q1.** If the system continuously reads switch states from Port A and displays the inverted pattern on the LEDs through Port B, where, Port C is used for handshaking signals; then, using 8155's control register contents explain how the ports of the 8155 should be configured. **5**
- Q2.** Using the Mode 2 timing diagram of the 8255, analyze the sequence of handshake signals involved in both input and output data transfers. **5**
- Q3.** How does the Cascading approach implemented in 8259 Programmable Interrupt Controller? **5**
-
