

Quiz # 02 (B)

Course Title: Peripherals & Interfacing
Course ID: CSE - 4619

Total Marks: 15

Time: 30 Mins.

Student Id:

Obtained Marks:

-
- Q1.** Explain the modes of built-in timer of 8155 Programmable Peripheral Interface. How the TC does handles both the EVEN or ODD numbers of cycles through its Terminal Count (TC)? **5**
- Q2.** What will be the Port C's pin functionalities when an external device connected to Port A expects bidirectional communication with handshaking? If Port B is also connected with an input device, then explain your reasoning with reference to the characteristics of Mode 0, Mode 1 and Mode 2 both for the Port A and Port B. **5**
- Q3.** Write the functions of different registers of 8259 Programmable Interrupt Controller. **5**
-
